Digestive Conditioning Program®

AN ADVANCED DAILY PROGRAM FOR OPTIMAL
EQUINE DIGESTIVE HEALTH

SUPPORTS DIGESTIVE HEALTH IN HORSES FACING
THE MOST RIGOROUS CHALLENGES OF MODERN CARE AND FEEDING.

30 SYRINGES, NET WT. 0.93 OZ (26.5G) EACH. TOTAL NET WT. 27.9 OZ (795G)

Use daily for ongoing nutritional support of healthy equine digestive tract structure and function. Ideal for horses facing the challenges of modern care and feeding.

- 30 SYRINGES, NET WT. 0.93 OZ (26.5G) EACH. TOTAL NET WT. 27.9 OZ (795G)
- Store at temperatures below 100° F (38° C). Keep out of direct sunlight.
- Feed twice each day for the first week of use, once each day thereafter.
- For best results, use with regular feed or diet of horses.

Directions for Use:

1. Remove protective cap from end of syringe.
2. From either side of your horse, grasp the halter with one hand to stabilize the horse's head.
3. Push the plunger slowly and evenly immediately before feeding. May be used as needed.
4. Empty entire contents of one syringe into the horse's mouth where a bit would fit (just behind the teeth). Do not accept or use this product if center of temperature indicator is above 100° F (38° C).
5. Allow to sit exposed to air for more than 30 minutes. This may reduce its appeal to the horse.
6. Feed SUCCEED Veterinary Formula once a day, every day.

Guaranteed Analysis:

- Lysine (Min) .........................................1.25%
- Leucine (Min)...............................................1.25%
- Threonine (Min) ..........................................3.00%
- Serine* (Min) ...............................................2.75%
- Proline* (Min) ..............................................3.00%
- Crude Fat (Min) .........................................49.00%
- Crude Fiber (Max) .......................................2.00%

Ingredients:

Yeast, Yeast Culture, Brewers Dried Yeast, L-Lysine, L-Isoleucine, L-Leucine, L-Threonine, L-Proline, L-Glutamine, L-Serine, L-Arginine, L-Taurine, Copper (II) Sulfate, Manganese Sulfate, Zinc Oxide, Amino Acid Mixture (L-Lysine, L-Leucine, L-Threonine, L-Isoleucine), Choline Chloride, Methionine, MOLYBDENUM, RIBOFLAVIN, PANTOTHENIC ACID, VITAMIN B12, PYRIDOXINE HYDROCHLORIDE, FOLIC ACID, Niacin, BIOTIN, SODIUM ASCORBATE, VEGETABLE OIL, OSMOGLIDE, L-arginine, L-Valine, L-Ala, L-His, and L-Orn. 20 MILLION CFU ENTEROCOCCUS CAMBAYI AND 6 MILLION CFU LACTOBACILLUS RABIE YEE. 9 MILLION CFU CLOSTRIDIUM BUTYRICUM.

CAUTION: TAKING SUCCEED® TO A NEW LEVEL FOR OPTIMAL EQUINE DIGESTIVE HEALTH

If you pump product from syringe, do not allow to sit exposed to air for more than 30 minutes. This may reduce its appeal to the horse. 30 minutes. This may reduce its appeal to the horse.

*Not recognized as an essential nutrient by the horse.
**Simple Instructions for Feeding SUCCEED® Oral Paste**

For best results, use with feed or immediately before feeding. Feed twice each day for the first week of use, once each day thereafter.

The benefits of good nutrition may be visible within 30 days. However, allow 90 days for full benefits. As with any nutrition program, if you stop using SUCCEED, the changes will subside.

1. Remove protective cap from end of syringe.
2. From either side of your horse, grasp the halter with one hand to stabilize the horse's head.
3. With the other hand, insert the end of the syringe in your horse's mouth where a bit would fit (just behind the teeth). Do not allow syringe to touch the palate.
4. Push the plunger slowly and evenly in two or three small steps, each time allowing your horse to swallow the oral paste, until the syringe is empty.

- Empty entire contents of one syringe into horse's mouth. Feed twice each day for first week of use, once each day thereafter.
- For best results, use with regular feed or immediately before feeding. May be used as top dress on top of feed (do not mix).

**Important:**

- SUCCEED is a natural product that gently maintains digestive health through good nutrition. As a result, please allow up to 90 days for full benefits.
- This product is intended to supplement the diet of horses and is not to be used in place of regular feed.
- If you pump product from syringe, do not allow to sit exposed to air for more than 30 minutes. This may reduce its appeal to the horse.

**Store at temperatures below 100° F (38° C). Keep out of direct sunlight.**

SUCCEED® Digestive Conditioning Program® Veterinary Formula provides a nutritional approach to managing optimal digestive health in horses facing the challenges of performance and breeding. This advanced veterinarian-exclusive formula delivers the benefits of original SUCCEED, with additional ingredients to support the health of different aspects of the equine GI tract:

- **GI Mucosa** – L-Threonine, L-Proline, and L-Serine are amino acids that support the normal production of mucus in healthy animals, which coats the wall of the entire GI tract.

- **Immune Cells** – L-Glutamine is an amino acid that provides fuel for muscles and also supplies nitrogen to the immune cells of the intestinal mucosa.

- **GI Tract Muscle** – L-Leucine, L-Isoleucine, and L-Lyaine are amino acids that support healthy muscle tone.

A healthy digestive system gives a horse its best chance for overall health and wellness, as well as optimal appearance, attitude and performance.

INTRODUCING THE SUCCEED®
HEALTHY GUT COMMITMENT
AVAILABLE EXCLUSIVELY THROUGH VETERINARIANS.

It’s not surprising that by maintaining optimal digestive health, even in the face of modern care and feeding, our horses are more likely to look, feel and perform to potential.

SUCCEED® Veterinary Formula provides nutritional support for the healthy structure and function of the equine digestive tract, so horses can reach their peak potential in health, performance and more.

This has always been the SUCCEED promise. Now, we are backing that promise with the SUCCEED Healthy Gut Commitment, available only from your veterinarian.

This special program ensures that you and your veterinarian are covered if SUCCEED does not live up to that promise.

It’s our way of supporting you, your horse and your veterinarian.

CERTAIN CONDITIONS AND LIMITATIONS DO APPLY.
